

E-Verify & I-9 Webinar Schedule

The Department of Homeland Security's U. S. Citizenship and Immigration Services offers several webinars monthly on how to use Form I-9s and the E-Verify system.

These are live Internet-based, interactive seminars. You may view the presentation via your computer and use a toll-free call-in number to hear the audio portion and ask questions during the webinars. There is no pre-registration or fee required.

Please check the calendar listing at the link below. Click "Attend Session" and you will be given related information. You need to access the webinar link about 10 minutes prior to the scheduled start times.

The schedule for the webinars is refreshed at least monthly.
