

Frequently asked questions

What is LiveHealth Online?

With LiveHealth Online, you have a doctor by your side 24/7. LiveHealth Online lets you talk face-to-face with a doctor through your mobile device or a computer with a webcam. No appointments, no driving and no waiting at an urgent care center. Best of all, LiveHealth Online is a part of your health plan. So the cost of a LiveHealth Online visit is the same as a primary care office visit.

Use LiveHealth Online for common health concerns like colds, the flu, fevers, rashes, infections and allergies.

Why would I use LiveHealth Online instead of going to visit my doctor in person?

LiveHealth Online is not meant to replace your primary care physician. However, it is a convenient option for care if your physician is not available, or if you need care for common problems like a cold or the flu.

LiveHealth Online connects you with a board-certified doctor in just a couple of minutes. Plus, you can get a LiveHealth Online visit summary from the *MyHealth* tab to print, email or fax to your primary doctor.

LiveHealth Online should not be used for emergency care. If you experience a medical emergency, call **911** immediately.

How long does a LiveHealth Online session with a doctor usually last?

A typical LiveHealth Online session lasts about 10 minutes.

When is LiveHealth Online available?

Doctors are available on LiveHealth Online 24/7, 365 days a year.

How does LiveHealth Online work?

When you need to see a doctor, simply go to **livehealthonline.com** or access the LiveHealth Online mobile app. Select the state you are located in and answer a few questions.

Establishing an account allows you to securely store your personal and health information. Plus, you can easily connect with doctors in the future, share your health history and schedule online visits at times that fit your schedule.

Once connected, you can talk and interact with the doctor as if you were in a private exam room.

Do doctors have access to my health information?

LiveHealth Online doctors can only access your health information and review previous treatment recommendations and information from prior LiveHealth Online visits.

If you are using LiveHealth Online for the first time, you will be asked to answer a brief questionnaire about your health before you speak with a doctor. Then, the information from your first online visit will be available for future LiveHealth Online visits.

How do I access the LiveHealth Online mobile app?

You can download the LiveHealth Online mobile app for free on your mobile device by visiting the App StoreSM or Google PlayTM.

Will I be charged more if I use LiveHealth Online on weekends, holidays or at night?

No, the cost is the same.

How do I pay for a LiveHealth Online session?

LiveHealth Online accepts Visa, MasterCard, American Express and Discover cards as payment for an online visit with a doctor. Please keep in mind that charges for prescriptions aren't included in the cost of your doctor's visit.

Can I get online care from a doctor if I'm traveling or in another state?

As long as you are located in a state where LiveHealth Online is available, you can get online care. To determine if online visits with a doctor are available in your state, please visit livehealthonline.com and view the state map at the bottom of the home page.

Can I get a prescription from the doctor during my LiveHealth Online visit?
