Quality care with you at the center

Our physician-led care teams work together to keep you healthy by delivering quality, personalized care.

Great care from our doctors

Our doctors come from top medical schools, and many of them teach at world-renowned universities. No matter which personal doctor you choose, you'll be in skilled, experienced hands—and your health is their main concern.

As your biggest health advocate, your doctor will coordinate your care journey, and you'll work closely together to make decisions about your health.

Better care with a connected team

Your doctor, nurses, and other specialists all work together to keep you healthy. They're connected to each other, and to you, through your electronic health record. So they know important things about you and your health—like when you're due for a screening and what medications you're taking. That way, you get personalized care that's right for you.

Personalized care for all members

Care at Kaiser Permanente isn't one-size-fits-all. We believe your story, background, and values are as important as your health history. To help deliver care that's sensitive to all cultures, ethnicities, and lifestyles, we:

- Hire many doctors and staff who speak more than one language
- Offer telephone interpretation services in more than 150 languages
- Train our care teams on how to connect with and care for people of all backgrounds

Personalized texting

To make it easier to stay on top of your health, you can now opt in for text message reminders for most upcoming appointments. You can also check-in and pay your co-pay via mobile phone as well as cancel most appointments with a text.

Through our culturally responsive care programs, we've improved health outcomes among diverse populations for conditions like high blood pressure, diabetes, and colon cancer.⁶

Great care, great results

From preventive screenings that keep you healthy to quality care if you get sick, we've got you covered.

Preventive care to keep you healthy

Preventive care is key to how we practice medicine. It can help you avoid some health issues and catch others before they become serious.

Your electronic health record plays a vital role. It tracks your preventive care services and sends reminders when you're due for your next screening. We'll let you know when to come in so you're free to focus on living your life.

Specialty care when you need it

Preventive care can help keep you healthy, but we're also here for you if you get sick or need specialty care.

From quality maternity care to treatment for cancer, heart problems, and more, you get great doctors, the latest technology, and evidence-based care—all combined to help you recover quickly.

Visit kp.org/excellence/mas to meet our brightest minds and take a closer look at our excellence in specialty care.

Support for ongoing conditions

If you have a condition like diabetes or heart disease, you're automatically enrolled in a disease management program for personal coaching and support. With a well-rounded approach backed by proven best practices and advanced technology, we'll help you get the care you need to continue living life to the fullest.

A leader in clinical quality

In 2018, Kaiser Permanente led the nation as the top performer in 30 effectiveness-of-care measures—the most of any health plan.⁷ These measures include:

- Prevention and screening
- Cardiovascular care
- Comprehensive diabetes care
- Medication monitoring
- Breast cancer screening

Care Your Way

You deserve better than the usual

“Traditional” translates to “old-fashioned”

Health care built for you. And around you.

It's outdated, and doesn't acknowledge the way people live today.

Waiting for appointments and getting bounced around between doctors, labs, X-ray, specialists, and pharmacies means it takes longer to get care.

And extra expenses for transportation, babysitters, and parking can add up, too.

Isn't it time for a change?

Our members can connect to doctors, lab, X-ray, and pharmacy under one roof—in person or online, when care is received in Kaiser Permanente facilities.

Our doctors are all connected by the largest commercial electronic health records system in the country.

That means less traveling for you, less time waiting, and better coordination of your care.

What simple, smart health care can be

Having a good health plan is important. So is getting quality care. With Kaiser Permanente, you get both.
