SAFETY OFFICER NETWORKING MEETINGS

Get Stuck On Safety

@ 2017 C.Stacy

With the gradual lifting of travel restrictions, we are excited to resume our SONMs. So, mark your calendars.

In the next SONM, we will update you on pertinent information and present one case study. This case study will examine a claim where the worker became electrically frozen to an electrical device.

Once we finish the case study, we will have open discussions. Questions can be directed to one of the Risk Management Team.
