Recruitment Video in PageUp!

DHRM would like to remind all agencies about the function of the recruitment videos and how this can assist you in your efforts to fill jobs. In PageUp, on the sourcing tab, you can include a video that will allow your applicants to understand pertinent information about your agency and the job that applicants are applying to. To **include a video**, refer to the attached link for instructions. [Including videos in a job advertisement](#). If you have any questions or need assistance with this process, email allen.blair@dhrm.virginia.gov.

THANK YOU to the following agencies who are currently using this great feature in PageUp. Take a look at these videos and please consider adding a video to your job postings.
