DHRM HR Highlights May

UPDATE: COV Learning Center Data Reduction Project

To meet Library of Virginia data retention schedules and improve system performance, we have begun deleting accounts in the COV Learning Center (COVLC) learning management system. Accounts for non-state users and external partners who have not accessed their accounts in 2 years or more have been deleted. Our next step is to delete the accounts for those state employees who have been separated 5 years or longer and have not returned. The data set to be deleted has been retrieved from the PMIS system and has been disseminated to those agencies that have requested to review the data. The deadline for this review is 5/30/25. We plan to begin the deletion process for these accounts as of 6/1/25. Any questions on this project should be directed to covlchelpdesk@dhrm.virginia.gov.
