April 2023

Title: 2022 Data Available in Mercer Compensation Benchmarking Platform

DHRM has received inquiries regarding compensation studies being conducted at a number of agencies. As a reminder, state agencies are able to access national compensation survey data from the Mercer Compensation Benchmarking Platform at a discounted rate through a partnership with DHRM. Agencies leveraging the platform for compensation data should return a signed MOA to DHRM to initiate the invoice. Please note, DHRM must receive payment in order for agencies to be able to access the survey data in the Mercer Database.

New Agencies who would like more information on the Mercer Benchmarking Platform and participation costs, please contact Christopher.kinney@dhrm.virginia.gov.
