

**HR Highlights
August 2022**

It's Full Speed Ahead for the New Recruitment Management System!

DHRM has hit the "go" button on implementation of the Recruitment Management System! Kicking off on July 12, the project has six stages: Plan, Configure, Test, Train, Go Live, Post implementation. We're in the process of reviewing the project plan and providing information to PageUp, which was awarded the VITA contract, to prepare for the configuration phase. The recently-created Agency HR Advisory Group will be the voice of the customer throughout this project. We will be giving project updates during our monthly Recruiting Network Action Team meetings. If you have any questions, please contact [Allen Blair](#) or [Ponnette Smith](#).
