

## HR Highlights January 2021

### **HuRMan Portal: Multi-Factor Authentication**

DHRM has implemented Multi-Factor Authentication on the existing HuRMan portal. This is the first step in preparation of the SecurePass 2.0 rollout. SecurePass 2.0 will be a phased rollout beginning in February to all existing HuRMan users. The next step will be for all agency PMIS Security Officers and agency HR Directors to register in the system. DHRM will send a link to allow you to register and invite your agency DHRM Web Application users. It is important to be sure DHRM has your current PMIS Security Officer and HR Director names on file. If there are any changes, please send updated information to [ihelp@dhrm.virginia.gov](mailto:ihelp@dhrm.virginia.gov). SecurePass 2.0 will allow for online control of access by agency administrators, and access will be managed internally by each agency rather than by DHRM. Stay tuned for more details.
