

HR Highlights July 2021

Focus Groups on Health and Wellness Educational Programs

The DHRM Office of Workforce Engagement has developed a project team focused on meeting the unique needs of managers and supervisors. The purpose of this team is to create health and wellness educational programs that are specifically targeted to supervisors and managers. The goal is to address needs that may otherwise go unattended to because of the roles and responsibilities of leading people, plans and processes.

To assist with program development and planning, the project team will be implementing focus groups to hear from Agency Heads, HR Directors, managers and supervisors and gather information that would be helpful in your unique role.

The focus group will be conducted on **Tuesday, August 24, 2021, at 10:30 a.m.** Please consider joining in to share your knowledge and expertise. Please click [Focus Group Sign Up](#) to sign up for the focus group. Focus group participants will receive log-in information to participate in the virtual focus group when they sign up. The focus group will be a small time commitment from a scheduling perspective, but your time will provide a big impact in developing helpful programs.

Please feel free to contact our project team members with any questions. Your feedback is valuable to us and will assist in creating a relevant, useful program for the Commonwealth of Virginia's managers, supervisors, Agency Heads and HR Directors.
